## Freshly Harvested Local Organic Produce Grown From Heirloom Seeds For Next Day Deliveries

Posted by admin

As our outings are becoming increasingly restricted do remember Greenheart Organic Farms for online delivery of fruit, vegetables and much more. It is important to note too, that Greenheart uses its own heirloom seeds, generated on the farm as well as its own fertilizer, created from its animals' manure. As a result, Greenheart doesn't rely on any external suppliers to grow its pure, organic produce.

Ordering organic produce from Greenheart is almost like stepping into your own back garden and picking whatever you need to prepare your meal. All produce grown on the farm is harvested freshly every morning, boxed out and delivered to homes within hours.

The website is a one-stop platform for the best cherry-picked, affordable, organic groceries. As well as fresh fruit and vegetables, Greenheart stocks a large selection of superfoods, health foods, snacks, beverages, pantry items, meat, dairy, baked goods, toiletries and lots more.

Dubai home delivery and collection:

Greenheart now offers home deliveries within most areas in Dubai 6 days a week (Sat - Thur), with a minimum spend of 130 AED for home delivery. Any order below 130 AED is subject to a delivery fee of 20 AED. Alternatively, there are a number of convenient collection points across Dubai, (no delivery fee).

### How to order:

Simply select everything you need and proceed to check out. Select your delivery area and your slot, and orders placed before 12 noon will arrive the next day. Payment can be made online by credit card or cash upon delivery.

### They read the small print so you don't have to!

We all know that not all products marketed as organic are free from nasties. However, if there is anything in it that should not be there - Greenheart will not stock it, in fact they only stock products they really like. Profit margins are secondary for them. Strictly no palm fats, hydrogenated palm fats, preservatives, any e-numbers, artificial additives.
